Skills

🌐 Front-End Development

Intermediate

React, TypeScript (TSX), HTML5, CSS3,
Tailwind CSS, NextUI, UI/UX design,
DaisyUi, Javascript

🗄 Back-End & Database

Intermediate

Node.js, PHP (Architecture CRUD), Rust,
Firebase (Realtime Database & Auth),
Supabase, MySQL

🛠 Outils & Environnement (DevOps / Systèmes)

advanced

Linux (Arch Linux, Ubuntu), Cursor,
Claude Code, Ollama (Local LLMs), Git,
GitHub, Gestion de serveurs / Hébergement
(Firebase Hosting)

🧠 Soft Skills (Compétences humaines)

Team Leadership, Self-Management,
Problem Solving, Interpersonal
Communication

Computer Engineering student and passionate full-stack developer specializing in modern, fluid, and responsive web interfaces. Rigorous and autonomous, I apply my skills to building concrete applications and digital solutions. My goal is to continuously elevate my technical standards, structure my expertise, and contribute my energy to ambitious projects.

Education

St. Charles Lwanga High School

High School Diploma • Mention AsGraduated with Honorssez Bien

High School Diploma in Experimental Sciences (S2 Track)

Ziguinchor, Sénégal • 2024

Earned High School Diploma with a concentration in Mathematics and Physical Sciences.

Experience

Universys Project

Ziguinchor

Full Stack Developer

Jan 2026 – Present

Designed and developed a centralized platform to digitize university governance and dynamic academic scheduling.

Highlights / Key Contributions:

- **Frontend Architecture:** Architected and developed a fully responsive user interface, ensuring seamless accessibility across devices.
- **Database & Real-Time Sync:** Integrated and managed a real-time Firebase database to support live schedule updates and data synchronization.

Assane Seck University of Ziguinchor

Ziguinchor

Class Representative – B.Sc. in Computer Engineering (2nd Year)

March 2026 – Présent

Position Title: Class Representative

Key Contributions / Highlights:

- **Academic Liaison:** Served as the official spokesperson and delegate representing the student cohort to the faculty and university administration.
- **Operations & Conflict Resolution:** Managed internal communications, resolved interpersonal conflicts, and coordinated academic scheduling between students and faculty.
- **Student Leadership & Mentorship:** Organized student initiatives and facilitated peer-to-peer technical mentorship and academic assistance within the cohort.

Projects

RichLabs – CRUD Web Application

March 2026 – Jun 2026

Year-end academic project focused on building a full-stack PHP web application featuring a fully functional CRUD system. Built and deployed on a local Linux environment to reinforce systems administration and web server management skills.

Bullet Points (Key Highlights) :

- **Backend & Database:** Developed a robust PHP web application with complete CRUD functionality for seamless data management.
- **Systems Administration:** Built directly within a native Linux environment to strengthen skills in local server configuration and system management.

Longrich E-commerce

March 2025 – Jun 2026

Summary: Designed and developed a modern, responsive e-commerce web platform for showcasing and selling the Longrich product line.

Key Highlights / Bullet Points:

- **Frontend Architecture:** Built a scalable application architecture using React and TypeScript (TSX) for end-to-end type safety.
- **UI & Cart System:** Implemented a smooth, responsive user interface alongside an interactive shopping cart system.
- **Deployment & Cloud Hosting:** Deployed and hosted the production web application on Firebase.

Pendul-mania

March 2025 – May 2025

Project Title: Interactive Hangman Web Application

Summary: Designed and developed a modern web entertainment platform enhancing the classic Hangman game with interactive and collaborative features.

Key Highlights / Bullet Points:

- **Real-Time Communication:** Implemented a real-time chat system enabling instant in-game communication between players.
- **State & Data Sync:** Managed global game state and real-time user data synchronization leveraging Firebase.
- **Dynamic UI/UX:** Designed a dynamic, highly responsive user interface tailored for multi-device playability.
